

## D8770: Managing IBM Lotus Domino 8 Servers and Users

2 Days / \$1,100

### Summary Description:

In this course, you will perform standard server maintenance and troubleshooting tasks. You will also register and maintain Notes and non-Notes users.

### Prerequisites

The prerequisites for this course include completion of the following IBM Lotus Domino 8 courses or equivalent knowledge, skills, and experience:

- \* (Required) IBM Lotus Domino 8 System Administration Operating Fundamentals (D8750)
- \* (Recommended) Building the IBM Lotus Domino 8 Infrastructure (D8760).

### Topics Covered

#### Managing Users

- \* Moving a user's mail file
- \* Changing a user's name
- \* Acting on name change requests
- \* Changing a user's location in the hierarchy
- \* Extending a Notes ID
- \* Setting up ID file back
- \* Recovering an ID file
- \* Deleting users

#### Managing Groups

- \* Creating groups
- \* Changing a user's group membership
- \* Managing groups
- \* Renaming groups
- \* Deleting groups

#### Managing Non-Notes and Notes Clients

- \* Setting up browser clients
- \* Configuring Smart Upgrade
- \* Enabling Smart Upgrade tracking
- \* Setting up roaming users
- \* Enabling or disabling roaming user upgrade status

#### Deploying Composite Applications

- \* Understanding composite application deployment fundamentals
- \* Configuring Lotus Notes 8 clients to access composite applications on a WebSphere Portal server
- \* Introducing composite application provisioning
- \* Configuring clients for user-initiated updates

#### Managing Servers

- \* Using the server console window
- \* Defining a backup process
- \* Enabling Transaction logging
- \* Analyzing activity data
- \* Automating server tasks

#### Updating Servers

- \* Searching for server references in a domain
- \* Setting up authentication with other Domino organizations
- \* Changing server access
- \* Decommissioning a server
- \* Recertifying a server ID
- \* Changing administrator access

#### Setting Up Server Monitoring

- \* Identifying mechanisms for collecting server information
- \* Starting the Statistic Collector task
- \* Creating event generators
- \* Creating event handlers
- \* Choosing a notification method in an event handler
- \* Creating probes
- \* Enabling agent logging

#### Using Domino Domain Monitoring

- \* Creating and configuring Domino Domain Monitoring probes
- \* Using Domino Domain Monitoring

#### Monitoring Server Performance

- \* Viewing Domino Domain Monitor events
- \* Viewing real time statistics
- \* Viewing statistics with Server Monitor
- \* Using the Domino Web Administrator
- \* Using the Domino Console

#### Resolving Server Problems

#### Resolving User Problems
