

N7D720: Exploring the New Features of IBM Lotus Domino 7 Administration

1 Day / \$550 (plus tax on printed courseware)

Summary Description:

Learn the new administration features in Notes/Domino 7 to aid in planning your upgrade.

Prerequisites

- Administering IBM Lotus Domino 6/6.5 Operating Fundamentals
- Administering IBM Lotus Domino 6/6.5 Building the Infrastructure
- Administering IBM Lotus Domino 6/6.5 Managing Servers and Users

or equivalent knowledge, skills and experience.

Topics Covered

- Installing and setting up IBM Lotus Domino and DB2
- Using Domino Domain Monitoring
- Using the User Administration Enhancements
- Messaging and Calendaring Enhancements
- Using the Server Administration enhancements

Audience

The target audience is experienced Domino 6 administrators who require early exposure to Domino 7 and features that impact system administration, and who will be responsible for upgrading the Domino infrastructure to Domino 7.

About WorkFlow Studios

WorkFlow Studios is a Premier IBM Business Partner, reseller of IBM software, and Education Center for IBM Software (ECIS).

Education Center for IBM Software (ECIS)

Our education business is driven by the recognition that the best training environment is one that creates hands-on learning opportunities that dive deep below the surface of the courseware. Our instructors are also consultants who share their expertise and experience in classroom demonstrations of real-world solutions.

Our commitment to you as a student of WorkFlow Studios is simple:

- You will learn from the best in a hands-on, first-class training environment
- We'll dive deep beyond the surface level of the courseware to share our insight and first-hand consulting experience with the topics you'll be learning
- We'll give you access to the latest and greatest technologies in our labs

WorkFlow Studios is authorized to teach the full-suite of IBM's Lotus and WebSphere brand curriculum.

Software Reseller

We are committed to helping organizations like yours establish a successful strategy for licensing software at a good value. In today's tightened economy, managing software as an asset rather than as an expense has become critical. Failing to carefully manage software assets can cost businesses several times more than the cost of the software itself. It's that simple. We understand how to make sure you get the most value for your money whether it's a new software purchase or a renewal.

Services

WorkFlow Studios delivers creative, innovative, and cost-effective IT services and solutions to support your business. Our approach to your business challenge is simple. We learn everything we can about your business, study the challenge from every angle, then propose an elegant solution designed to fit your budget, timeline, and the personality of your business. We'll follow that up with our proven experience to deliver on what we promise. Our services include:

- Application development
- System integration including Web services, EDI, host integration
- System administration and troubleshooting
- System architecture and design
- Staff mentoring
- Staff augmentation
